Identify steps;

- Requirements and Modelling
- Identify User Stories
- Identify the Nouns in the user stories
- Identify the Verbs in the user stories

Understand E-Commerce Domain: Functional Requirements

- List products
- Filter products as per brand and categories
- Put products into the shopping cart
- Apply coupon for discounts and see the total cost all for all of the items in shopping cart
- Checkout the shopping cart and create an order
- List my old orders and order items history

Understand E-Commerce Domain: User Stories (Use Cases)

- As a user I want to list products
- As a user I want to filter products as per brand and categories
- As a user I want to put products into the shopping cart so that I can check out quickly later
- As a user I want to apply coupon for discounts and see the total cost all for all of the items that are in my cart
- As a user I want to checkout the shopping cart and create an order
- As a user I want to list my old orders and order items history
- As a user I want to login the system as a user and the system should remember my shopping cart items

Understand E-Commerce Domain: Non-Functional Requirements

- -ilities

Scalability

Availability

Reliability

Maintability

Usability

Efficiency

Request per Second and Acceptable Latency

Concurrent Users	Requests/second	Latency (Expected)
2K	0.5K	
20K	12K	
100K	80K	<= 2 sec
500K	300K	?
